

Jimmy Witcher:

Well, good evening everybody. Welcome. Let's praise the Lord for what he's doing. It's great to be with you tonight, Zion 2026, to gather together. And of course, we're going to get to hear from Chuck Pierce here in just a minute. But before we do, I want to just do a couple of things. First of all, I always love these times where we get to gather together as all of our campuses together. So I just want to give a shout-out to everybody from Decatur to Wellington, Pampa, Willow Creek, Hollywood Road, Espanol, Lubbock campus, everybody all around. Can we just praise God that we get to connect all around for everybody's being able to connect and do this together as we celebrate God? And I also want to remind you, we are in Zion Week. And I applaud you, as we talked about this morning, for coming out tonight and spending the time and the energy to press in for what God has.

I've had a chance to visit a little bit with Chuck and I'm just super excited. In my spirit, I'm even just even more excited about what God is going to be doing tonight. And so, I want to encourage you to open up your heart, open up your spirit. Chuck, we call him Pastor Chuck. He's Prophet Chuck, Apostle Chuck, Pastor Chuck. He's been a longtime friend of Trinity Fellowship, a longtime friend of Kim and mine, and Pam. And he's been coming out here for decades on Zion at the beginning of the year. And I love when he comes out, because he always has something to share. And so, we're going to hear that prophetic voice tonight. And as we talked about this morning, I believe there's going to be an impartation, an activation in our lives for that. And then I want to remind you that we're also in a fast.

So this is a time of fasting and praying. And so, we want to gather together as a church and fast. I want to encourage you to fast a meal, fast a food, fast a food group. As I said this morning, if you're not a little bit hungry, you're doing it wrong. And so, find something that we can give up that we can fast, so we can press in to God. And then the other thing we want to do is we're pressing in to prayer. And so, there's going to be two ways to do that.

Number one, I want to encourage everyone to get the app. TFC.org, you can download the app there. You can just go to the app store. You can also just go to our website of [tfc.org](http://tfc.org), but either way, whether you go to the website or through the app, open up the journeys. And starting tomorrow, we're going to be praying together as a church. It's seven days of praying together as a church. And I've put together a prayer guide for us. You just go Zion 2026 prayer. It'll take you less than 10 minutes. You can do it with your spouse, do it with a group, but just get that prayer guide, so that we can all be praying together.

Just imagine the impact of a church that is fasting and praying together in unity. I really believe God wants to shift some things for us in this next season to move us into 2026 and to have us prepared and equipped for everything.

And also, for those of you who are here at Hollywood Road, I want to let you know that Chuck does have a book table out there and there's a couple of new books. One is *Firstfruits: Aligning Your Life for Prosperity and Purpose*. And another one that he was just telling me, actually, this is the first printing. It's almost sold out, it just came out just a few days ago. It's *Perspective: A Prophetic Vision for the Future*. I know that Chuck is going to share a little bit out of this book. I want to encourage you. If you're at Hollywood Road campus, you can pick it up. If you're at one of the other campuses, you can get these on Amazon or go to Glory of Zion website and you can get them there.

Well, it's just such an honor, as always, to have Chuck Pierce here to come with us. Would you guys please welcome our dear friend, Chuck Pierce, as he comes to share? Yeah, stand to your feet if you would. And let's honor Chuck for who he is and what he has been for us as a church.

Chuck Pierce:

Wow. Wow. Don't sit down yet. Put your hand on somebody and say, "Get ready. We're moving forward this year."

Now bless two or three people and be seated, and let me share a few things with you. It's amazing, because I look forward to coming to Amarillo every year. I don't have a lot of tradition in my life, but coming out here is really been a joy of mine. It's been about 25 years now and look at somebody, and say, "He looks better now than what he used to."

But it's something, and this year it's summer, so it's easier to come. We've not had a winter and sometimes it's hard to get here. And last year, I think the wind was blowing so much, the plane wouldn't come. But when I get here, you're out here, just out here in West Texas, but it's something about Amarillo. It doesn't feel isolated at all. It's almost a feeling of insulation out here. And that says there's something in the atmosphere here that is being created, that you are creating in this atmosphere that makes it very welcoming for people to drive into your city limits. And that's really important, because you have to... When you understand my life, which is 550,000 miles a year, and I leave from here and head straight to Korea, you don't always feel that when you go places. A lot of places I'm going, because it's really a big mess. And so, when you hit a place like here, I don't want you to take it for granted.

There's something very steady God's doing here, and yet I heard him say something for you this year, that you need to enter in. Now, I do want to say to you, this book is important. Charisma has, matter of fact, it ended up on the cover of Charisma this past month, because it's one of those books, it's not easy to read, I'll just go ahead and tell you that, it's important to read, because it's going to help you develop who you are, first of all. It's going to help you see where we're going. And it's important, because you are part of the Kingdom of God, that you know your role in it. And this book is very helpful.

Many of you have heard me say on January the 1st, 1986, God visited me and he showed me what would happen worldwide in 10 year increments. And you say, "Well, why would he visit you?" Well, he knew I would listen. It's really that simple. And he knew that some way down in me, I would pursue what he said. He showed me China starting in, which I had been working in since 1982, starting in 1986, what would happen through 2026.

Now, look at somebody next to you and say, "We're here now." Now, that's really how the prophetic works. See, God's not in time. We're in time, and that's what you want to understand. And all of a sudden, he can catch you into a place, so you see beyond where you presently stand. And he does that to certain people, so that they will watch the signs of how things are moving in the earth realm. And you say, "Well, he's God. He runs the world. He does all of that." But you have to understand, in Daniel chapter seven, you find something about Satan. Satan's thing that he really can do is work with time. And it says there that he can wear your mind down in such a way that he can get you out of time and cause things to happen out of time. And therefore, God doesn't do anything without first telling his prophetic people, because he's got to have a remnant that will stand in the gap, so that we keep moving in his perfect time.

So you can imagine him... And the ancient of days comes down, and it says Satan would wear out the saints, but there comes a moment where all of a sudden the Lord comes down and energizes us, and moves us forward. Now, if you can imagine seeing in detail from 1986 through 2026, and thank God I do have... I'm not just some wild prophet, I've got some administrative ability, so I outlined what we were looking for.

And we have watched that outline play out to where we are today. And Peter Wagner, I started working with Peter in 1990, and when I would prophesy, Peter had... He was just really an interesting guy, and he had a timeline, and he would put it on a timeline, and first of all, he was doing it to see if I was really hearing the Lord, and the second thing he was doing was to watch for it. Now, we are at a place this year

that we have never been before, and you say, "Well, that's every year. We've never been there before every year."

But this year there's some sort of divine alignment from heaven that's going to sovereignly produce change. See, don't ever take God out of his sovereign position, because he is quite capable of intervening. So, I want to share some things with you. I want to encourage you. I don't usually stand up here and do a promotion of anything, but this book would be worth you reading. And because I've been asked so many times, "How can I hear God?"

And I say, "Well, first of all, you're going to have to be quiet and listen instead of talking all the time." But second of all, you have to develop a core within you, a core structure within you. And there is a chapter in there where I show you how to do that. Now, before I share some things with you about the message, I do want to say to you, it's important you read the word this year. Now, I love this fast thing and that's what I'm going to end with, because God is saying it. I know we fast every year and I come out here, and you're starting into a fast, but see, this is what makes this year different. God is saying it this year, because it's going to produce some things that have never been produced before. And you say, "Well, all I want to do is come to church and live a good life and go home, watch TV and do what I'm supposed to do."

That ain't going to be how it works this year. And somebody needs to tell you it's going to be a very interesting year. And there's something about the stability of this particular church structure that is important for you to look at right now, because you represent a very stable church. I mean, our place is wild. There's something about you looking around right now and knowing that this year it's a divine alignment and lots of change is going to come. It's an exciting, exciting year.

And the first thing that I want to say to you, you're going to be supernaturally awakened in a way that you've never been awakened before. You're going to see things and all of a sudden you're going to be aware of things. I think some of us who have experienced things in our life, and many of you out there, when all of a sudden you were just overwhelmed by the spirit of God, this year it's going to be like an awakening coming into you. And all of a sudden things you couldn't understand in other seasons, God's going to snap a piece in place and all of a sudden you're going to get it. Why certain things happened, why certain people went certain directions. Why you went and did something one day, and yet how God's going to recover you in a moment. And it's going to be a divine movement in God's ecclesia here.

Now, with that, you always want to remember the time we're living in. See, we are living in a time of great change, but in the midst of a confused, cyclical, chaotic world that we're living in that it seems, all of a sudden, the Lord's telling his people, "You're going to begin to expect me to come in ways that you've heard about me coming."

So there's this expectation that's going to start rising up in you from month to month to month, and the word of God's going to become alive. See, don't get discouraged. Now, I'm going to ask you, and don't be embarrassed to do this. Some people have a hard time reading the word of God. Doesn't mean they're lost, doesn't mean anything. They just have a hard time reading and concentrating. If that's you, I want to pray for you right now. Just lift your hand and say, "I have a hard time staying focused in it."

Lord, I decree right now that blocking force that's stopping the light of the word from going in and penetrating your people this year, I decree they're going to have a breakthrough in revelation this year. All of a sudden, something's going to come alive to you. And I told my wife, we come out, I was never a good Baptist, but she was so we went there. And you would read your chapters and then you'd check it off. Anybody else grow up doing... Well, I didn't grow up doing it, but I did it from 18 on. And so, we would start off every year just reading the word of God. Well, when the Holy Spirit visited me and baptized me, and I came to know Holy Spirit when I was 18, all of a sudden I devoured the word. I was just overwhelmed and I would read probably six chapters a day, early. I'm not a big sleeper, so that was

not difficult for me. And Pam would start off reading. We've been married 52, going on 53 years now. That's been a long time. God help.

I will tell you this, we wrote a book together and Chosen said, "You guys are as different as night and day. How have you lived together for 52 years?" And she said, "It's real simple. He's traveled the whole time." But she would get to Leviticus and she'd say, "I just can't get this."

And it would throw her off and she would quit moving forward and get discouraged, because she couldn't read all the way through the Bible. I said, "Then skip Leviticus. Don't stop. Just skip over Leviticus and go on to the next book, or start off your year reading Leviticus, sit down and read it all, and just tell the Lord you don't get it at all and just put a check down. It doesn't matter. Just don't let him stomp you. The enemy wants to stop you from finding the revelation you need day by day by day."

Now with that, there's also a new anointing coming on us, because see, when you look at this era we're living in that started in February of 2019, because you always look from a Hebraic standpoint, because that's where our covenant is and you have to overlay that over our civil year that we live in. And when you look at it, you find we entered a season that is an era of war. It's called the pay season. It's where all of a sudden the breath of heaven is coming down and changing the heavens. And every year, you just don't end a year like we do and say, "Oh good, I'll do a New Year's resolution and start over."

That isn't how it works with God. It's moving in a cycle. Time is a circle, so what you're getting all of a sudden, you're moving from year to year and part of this particular era is a Passover era. You're having to go through the war to keep crossing over. So, a lot of times you sense this warfare, because we're in this incredible conflict that's going on worldwide in the nations. And then you finally get to six. Now that's the beauty of me coming out here, because I always enter in at Feast of Tabernacles, but it's almost like I start my year here, because I'm ending and shifting in where I've been.

We always have a gathering at the beginning of each year or at the end of each year, but it's something about the stability of here that gets me shifted into the culture that we're a part of. And we have shifted into six. And in Hebrew, every number has a word meaning. Every number has a sound. Every number has a picture to go with it. So, with that, we have shifted into this year of six and you're in it now. You can't get out of it. You didn't have to shift at the end of September, but you have shifted into it now. And so, six is about this divine alignment. It's called, in Hebrew, it's called vav. It's where all of a sudden there's this divine alignment coming down. Six is also linked with man, biblically. And all of a sudden, heaven is coming down in the midst of the conflict around us and aligning itself right through you.

That's what is going to make this year so different from any other year. And all of a sudden, you're going to see the conflict that's going on around you and God is going to anoint you to break the yoke of it. See, that's what this year is about. Six is always about, it's a year to gather. Your gatherings become very important. This gathering is important this year, because it's part of what six means. It's a year to divinely connect. So you need to stay connected and aligned. But then the number six is a vav, like a tent peg or a railroad peg. And all of a sudden what's happening is you are staking your claim in your land for the future. And see, six, because it's linked with man, you become... And see, a lot of years we say it's all about God and it's not about you. This year, it's about you.

You need to know you are important this year and how you stake your claim in this area is how you're going to see a manifestation of the remainder of this decade. So this year becomes like our pivot year, and we're going to have to stake our claim to move forward. And with that, all of a sudden you're... I said, "Lord, so what are you saying to them out there?" Because I've come out here and given awful words, and it's just been hellish for a while, but that was in the early season. And last year, it was a year of grace. This year, I said, "Lord, what are you saying to them out there?"

And the Lord spoke to me and he said, "Tell them to prepare for a greater glory than they have ever been in before. I am calling this group to expect a glory movement this year that they've never fully experienced." See, you're in a good place, you're in a stable place, but now the Lord says, "There's a greater glory I'm going to bring you into. Something you have never fully entered in and experienced before."

And then I asked the Lord, I said, "Well, Lord, what does the warfare look like this year?" And all of a sudden we were worshiping and the trumpet began to blow. And remember what it says in 1 Chronicles about the instruments prophesy. And the trumpet began to blow and all of a sudden God just opened the heaven, and he began to speak. And this was the picture he showed me from heaven. He said, "It's not going to be like riding the bull." Because I came out one time and said, "It's going to be like a bull ride all year."

That's not the picture he showed. He showed this matador and bullfight going on, and warfare is shifting this year. Now, the beauty of the matador and the bull is you win this war by skill, by artfulness, by creativity. You win it in a way that you are moving very agilely and you're controlling the movement of the foe in your ring. And the Lord says, "This year, you need to start this year off right here," I didn't even say this at our place, "where the enemy is not controlling you, but you are causing the enemy to know that you have taken a stand in your life and in your territory." And that makes it totally different, totally different this year.

Here's another way to look at this vav coming down, see? And I want to address all of you in the satellite churches that are connected here. This year is about divine connection. All of a sudden, how you're connected is how you are receiving what you need to propel yourself forward. And see, here's a better picture of how this really looks in days ahead.

It's a glory realm, it's a door of access, and all of a sudden it's a divine alignment that God is doing, so that in the midst of your life, you are going to experience his presence in a way like you have not experienced it before.

I want to stop right now and pray for you again. I want you to put your hand right here on your spirit, man. And I want to decree over you an awareness, an awareness of the spirit. I want to decree that you recognize the spirit of God moving around you. See, Jesus is seated next to the Father and Holy Spirit, the third person of the Trinity, is moving all around you and in you.

Now, Father, I decree right now an awakening to your spirit that people will recognize the spirit of God speaking this year, telling them which way to go, to go to the right, to go to the left. Father, this place has experienced a glory, but you're saying now a greater glory is coming.

What you're going to see that starts happening about March is accelerated change and it's going to produce transformations. And the territory is going to recognize that God is doing something in this territory. Other churches in the territory are going to start recognizing the spirit of God is coming to visit Amarillo. See, it's not just about here, but yet I consider this a central portal of the awakening of what God is going to do in this area. And then, the word I want you to remember for the year ahead is he is going to thrust you forward into a whole new place.

Everybody say the word thrust. Say, "I'm just a housewife. I'm staying home. I'm trying to raise those crazy kids of mine." And the Lord said, "You watch me thrust you in to a place where all of a sudden your household recognizes something is different."

And the word thrust is a real interesting word. It means you're being driven by force into, and it's causing things, you're causing things to change around you as part of this year. You're causing a course of action that got thwarted in another season to be reset. And so, Pastor Jimmy, you have to go back

and you have to look and say, "Well, one of the things God intended to do here that we've not fully seen, God is going to reset that course again."

It's amazing what we're going to see happen during this year ahead. And you're going to... See, by starting in this fast that you're starting in, and prayer at the beginning of the year, you're going to start continually presenting to the Lord what you want to see occur in this area. One time my pastor called me in when we were in Houston and he said, "You're a praying person and I don't know how to pray like you pray." And he said, "I know you pray in tongues." And I thought, "You must have a sign on your back when you pray in tongues, because everybody notices it."

He said, "I want you and I to sit down, and make a list of the 10 most wanted men in this church that wives are praying for. And then I want you to pray in each one of those men, because of their wife seeking the Lord," because we had some awesome women prayer meetings going on in that church. "I want you to pray every one of them into the Kingdom." I said, "All right."

That was my assignment. See, if I couldn't grab hold of that assignment, God couldn't give me China. That's how it works. And so, we started praying, and I never will forget it. That guy looked like he was from Amarillo, the last guy. He had these cowboy boots on with those steel toes on the end of them, and a hat, belt, and he came in during the middle of the service, a crowd about like this, walked all the way to the altar and fell on the altar. And the Lord said, "You have a testimony now of being able to break that cycle in a territory that's keeping men that I'm calling in to my Kingdom out of my Kingdom."

Now, I'm telling you, there are things God is going to start doing and don't start this year the same old way. See, this gathering isn't the same as we've had before, this message isn't the same like we've gotten before. Now, I want to leave a couple of things with you. He is longing to restore a glory in you. Every one of you, when he knits you together in your mother's womb, he knit... See, the egg and sperm came together, but it was God doing the knitting. That's what makes life so important to understand. And he was knitting together your spirit and preparing you to get to a place in your life where you presented that spirit back to him.

See, that's what salvation is. Where Hebrew says he's the father of your spirit, so there's going to come a time in each one of our lives where all of a sudden nothing will satisfy us until we present our spirit back to the Father who knit it together. And when he's doing that, he's knitting a portion of his glory. Psalm 7:16 says, "There's a glory in you that was deposited there." And what the Lord is attempting to do is to restore and bring that glory out in all of its fullness and cause you all of a sudden to light up. Look at somebody and say, "You're going to get bright this year."

See, this year is about you. It's about how he's going to deal with you. You're not going to just be able to humanistically worship him. He's going to deal with you in a way that he starts drawing this yearning in you to experience him in a way you've never experienced him. And in the midst of that, see, we've all sinned and fallen short of the glory of God, but that's why he came. He sent his son, because he wanted to set us right and give us the ability to experience our spirit eternally with him and experience the realm of glory that he rules from here. That's the Lord's prayer.

And so, all of a sudden, this gift he gave us of his son, that we during Christmas celebrate, all of a sudden... And then his son, who paid the price for you, all of a sudden what happens, he breaks the headship of Satan. He overcomes death, hell, and the grave, and then he sends Holy Spirit to come alive in you. Well, this is a year that Holy Spirit comes alive. See, the same decade that is a decade of war, peh, in Hebrew, is also linked with Holy Spirit. And we're at a year where Holy Spirit is going to come down and activate us in a way we've never been activated before.

I mean, operate in the gills, but I have not seen or heard what God's going to do in me this year in a way to draw me in to a whole new place. And so, the whole book of Haggai, and Aaron, thank you for helping

me, the whole book of Haggai is about a people who have come to a place. They've been released out of 70 years of captivity. They're at a place and Ezra had prophesied they would build a temple, and that temple would come alive in an incredible way. Well, God provided for them to get out of Babylon and make their way back to Jerusalem, and their assignment was restore the glory that the temple carried when Solomon built it.

And so, they get moving in this and all of a sudden they stop. 16 years, they stop, because the warfare gets too intense around them. So they have a heart to start building a place for this glory, but then they stop midway, because things get too tough. And what they do is they enter into establishing their own home and forgetting the glory realm that their corporate gathering is meant to have. It can happen to any of us. And the warfare got so intense for them that there were three things that happened to them. They got discouraged from moving forward. They got disillusioned over what God had said, and they actually lost interest in experiencing something that they were sent to experience.

And Haggai, the prophet, raises up and begins to prophesy, and say to them, "God's going to shake you. He's going to shake discouragement off of you. He's going to shake disinterest off of you. He's going to shake the disillusionment about him off of you. And he's going to shake it and he's going to present himself to you, and he's going to shake all of that off of you, and you're going to come back to the original purpose of why you got released out of Babylon." And the glory of the latter house is going to be greater even than the glory of the former.

See, the Lord sent me here to Amarillo this year to say there's a greater glory coming in to Trinity Fellowship. And he wants to cause you to come alive in a way, so that you're expecting that greater glory.

Now I want to end with this, because two days ago, Cindy Jacobs was ministering at our place and all of a sudden the spirit of God fell down and he said, "I am calling my people this year, month by month by month, into a three-day sanctification."

Now, sanctification means you're being set apart from something so you can enter into something. So, I began to ponder it and all of a sudden the Lord began to show me how he had waited 476 years to send a group in to experience all that he had called them to experience in the land they were a part of it. How many of you are from the Amarillo area? Just lift your hand. See, so many of you. And you have to think the earth is the Lord's and the fullness thereof. So Lord, this is a good town. This is an awesome church, but Lord, are we experiencing everything you meant for us to? And it took the Lord finding a people that he could thrust into the ultimate promise and manifestation he had intended. He prophesied it to Abraham and then he told Abraham, "It's going to take me 10 generations to get the enemy to a place to amass wealth before I send you in to take everything the enemy has amassed in the area."

See, that's what the book of Joshua's about. And then he finally got a people, after 400 years being in Egypt, that said, "Wait a minute, there's something in us that's missing here. We're not part of this people. We're different from this people." And they began to cry out to the Lord and the word of God says, "He heard them and acknowledged them."

See, when you start this prayer effort, and it doesn't matter that it's just 10 minutes, you need to say, "Lord, come down, come down in my family, come down in my business, come down in my neighborhood, come down in this city."

And he got that group moving. He dealt with all the demonic forces that had ruled them. That's what the plagues are about. And he got them moving, and after about three days of moving forward, they started murmuring and complaining. You know, it doesn't take us long to turn on the Lord. And he started coming down. See, that's the beauty of the Lord, Jehovah. He'll come down even in your murmuring and

complaining and say, "I'm going to be Jehovah Raphae in the midst of your murmuring and complaining, because you need a healer to be healed from the bitterness of your past."

See, God, he loves us. And so, he got them moving, but this is what he didn't like. He sent in the leader of every tribe to see what he was offering them, and they saw it. They touched it. It was incredible. And then they came back, because they saw a giant to the side, and they came back and said, "That's too hard for us. We'd rather go back to where we came from."

Listen, I'm telling you this year, you can't go back. Somebody needed to come and tell you. He can bring your mistakes in front of you and reconcile them, and you can keep moving, but you can't go back to a place where you want to be comfortable and not press forward. That's what I love about this place out here. Every year you're saying, for the next seven days, "We're going to press in."

Notice what happened. See, when you start not pressing forward with him, he'll postpone the ultimate manifestation that he has for you. He postponed it for 40 years. Now look at somebody next to you and say, "I don't want that 40 year plan." But then, God has a moment where he says, "I've got a group that I'm going to thrust forward into this greater glory. I'm going to stir it up in them. I'm going to stir it up so much that they're not going to be willing to want to go back to a place where they've been before."

That's what this year's about. You're going to lose the desire to back up and not press in. And all of a sudden, you're going to have this dynamic call to press in to something you've never seen before. I told you, God showed me in '86 what would happen in '26. I have to press in to that. I can't go back to '85. I can't go back to '25. I have to press in to what I saw this year.

See, that's how the prophetic works. You see it, and then you walk toward it, and all of a sudden, before long, you step in it. And you know what he did? And this is what I want to end with. He got this group moving. He didn't even let the leader move with him that had been working with him all that time. And he took a Joshua and he said, "I want you to remember everything that has been said. And if you'll meditate on it day and night, you will succeed in what's ahead for you."

See, the Lord's saying, "I'm going to draw back how you have gotten to today. I'm going to pull it up here and I'm going to remind you how you got here, and you're going to rehearse it and meditate on it, and all of a sudden you're going to succeed in seeing it happen."

So he gets them moving, but you know what he does? He changes the way they have experienced for 40 years the glory. He removes the cloud. He removes the fire. And he says, "We're going to shift things and you're going to enter in this time to this promise, but before you do that, you're going to sanctify yourself for three days."

See, this year with this fast and this call that God's extending to you, you need to say, "What is it I'm going to allow the Lord to set me apart from, so I can enter into the greater?" See, when you pray tomorrow morning, that's all you have to say. You don't have to understand it. You don't even have to know what you're looking for. Abraham didn't. You're just going to say, "Lord, show me how to sanctify myself for these three days ahead, so that I am ready to follow in a way that you intended us to follow 476 years ago."

And that's a word for this nation. "Show me, so that I am longing to follow you into a manifestation I have never seen before and the greater glory experience it in me, in a way that has never gotten unlocked. And then, Lord, every place I walk," and this is what he told Joshua, "Every place I walk in Amarillo or in those satellite churches, that glory is going to enter the ground that I'm walking on and all of a sudden the territory is going to awaken to that glory in a way that the territory has never awakened, and is going to cause people that have been captured in one season to seek freedom in another season."

Let's all stand up. Father, I cannot think of a place that you're going to use more than this place and this people, to create a new model of how you will move us into the season ahead. Father, I ask for a

supernatural grace. Let's just lift our hands. I ask, Lord, as Paul asked, that a spirit of revelation and a spirit of wisdom rest upon the people here. I decree, Father, that they will catch the winds of your spirit that began to blow in this area. I decree, Lord, they will awaken each day in a new day with an expectation. And Father, I bind and I break hope deferred that is stopping them from expecting you to come and accomplish what they know you long to accomplish. Father, I say renewed hope will sweep through Amarillo and every place that is connected with Trinity Fellowship. And Lord, we asked you let the greater glory come in Jesus' name. Let's give a shout and thank God for what he's doing.

Jimmy Witcher:

Thank you, Chuck. Appreciate you. Amen. What is so great to get to celebrate with you. Just want to remind you of a couple of things and I'll pray a blessing before we go, if you just don't mind, remain standing for just a minute. Remember that on Wednesday evening at all of our campuses, we're going to have a Zion Night of Worship and Prophetic, and prayer and just pressing in to the Holy Spirit, activating that glory that Chuck was just talking about. But also tomorrow, be sure to download out of the app or off of the website, the Zion 26 Prayer Guide. It's going to be amazing.

Father, I just pray for this congregation. We're so thankful for Chuck and for his word, and for that awakening that is coming to each one of us. And God, we just lean into that. We're thankful for what you're doing. I pray a blessing on every individual and every campus and location, everybody that's joining us online. God, let our spirits just come alive in what you're doing is we're partnering with you, God. We do pray for that glory to be awakened on a whole new level as we trust in you. In Jesus' name, we pray. Amen. Amen.

Love you, guys. Y'all be blessed. Have a great night.
